

Volunteer Role: Trustee

Merton's leading environmental charity is recruiting Trustees now

Sustainable Merton aims to be the borough of Merton's leading environmental sustainability charity. Over 50 people (staff, trustees, community champions and volunteers) help deliver our agenda – focusing on Air Quality, Food, Waste and Energy.

We currently have three vacancies on our trustee board. The role of the Board is to set our overall strategy and to provide governance and guidance to our CEO, Ms Diana Sterck and her excellent team. The board brings together a group of people with the range of professional skills and experience we need to ensure that the charity is well governed.

Due to the next phase of growth the Board is now particularly looking for leadership and professional skills including marketing/PR/digital communications, fundraising and campaigning/lobbying, and enterprise growth and business planning.

Requirements:

Our trustee positions are ideal for people who have environmental/sustainability experience in any of the four key agenda areas wishing to further their career- as well as for professionals wanting to cross over to/gain experience in the environment/sustainability sector.

Ideally you need to live in or near to Merton and we encourage applications from all members of the local community.

The minimum commitment we require is for 6 (evening) Board meetings each year plus our Annual General Meeting and Members evening.

Expenses:

The positions are voluntary but reasonable travel expenses can be reimbursed.

Role Description:

[Please see the role description here](#)

Please apply with a CV and covering letter by 5th October

Send by email to info@sustainablemerton.org with 'Trustee Application' in the subject line.

We are planning an informal meeting for applicants on 15th October at the Sultan pub in South Wimbledon at 7.30pm.
